UCD WARRIOR BENEFITS

-  **A reliable, high yielding short-day cultivar**
-  **Strong resistance to soil-borne diseases**
-  **Produces a high percentage of marketable flavorful fruit with excellent post-harvest fruit quality**

Developed at the University of California, Davis for production in short-day growing regions worldwide. UCD Warrior has one of the best packages of resistance to important soil-borne diseases: Fusarium wilt, Macrophomina (charcoal rot) and Phytophthora crown rot. This cultivar consistently produces firm fruit that are visually appealing, flavorful, and hold extremely well in transport and storage.

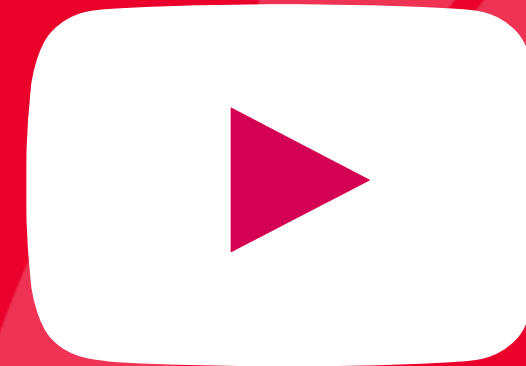

Highly Resistant to Macrophomina and Wilt Diseases -

UCD Warrior is an asexually propagated hybrid suitable for production wherever short-day cultivars are grown. UCD Warrior has a rare combination of high yields and resistance to Macrophomina, in addition to resistance to Fusarium wilt and Phytophthora crown rot. The post-harvest fruit quality of UCD Warrior has been outstanding, with a high percentage of marketable fruit with a long shelf life.

UCD WARRIOR OVERVIEW

Plant Habit

Standard planting densities are recommended

Seasonality

Early

Quality

Large, firm, visually appealing, flavorful fruit with a long shelf life

Climate

Typical European short-day production environments

Cultivar

Asexually propagated hybrid

Yield

High yields of marketable fruit

Chilling Requirements

200 chilling hours recommended for maximum yield

Planting Density

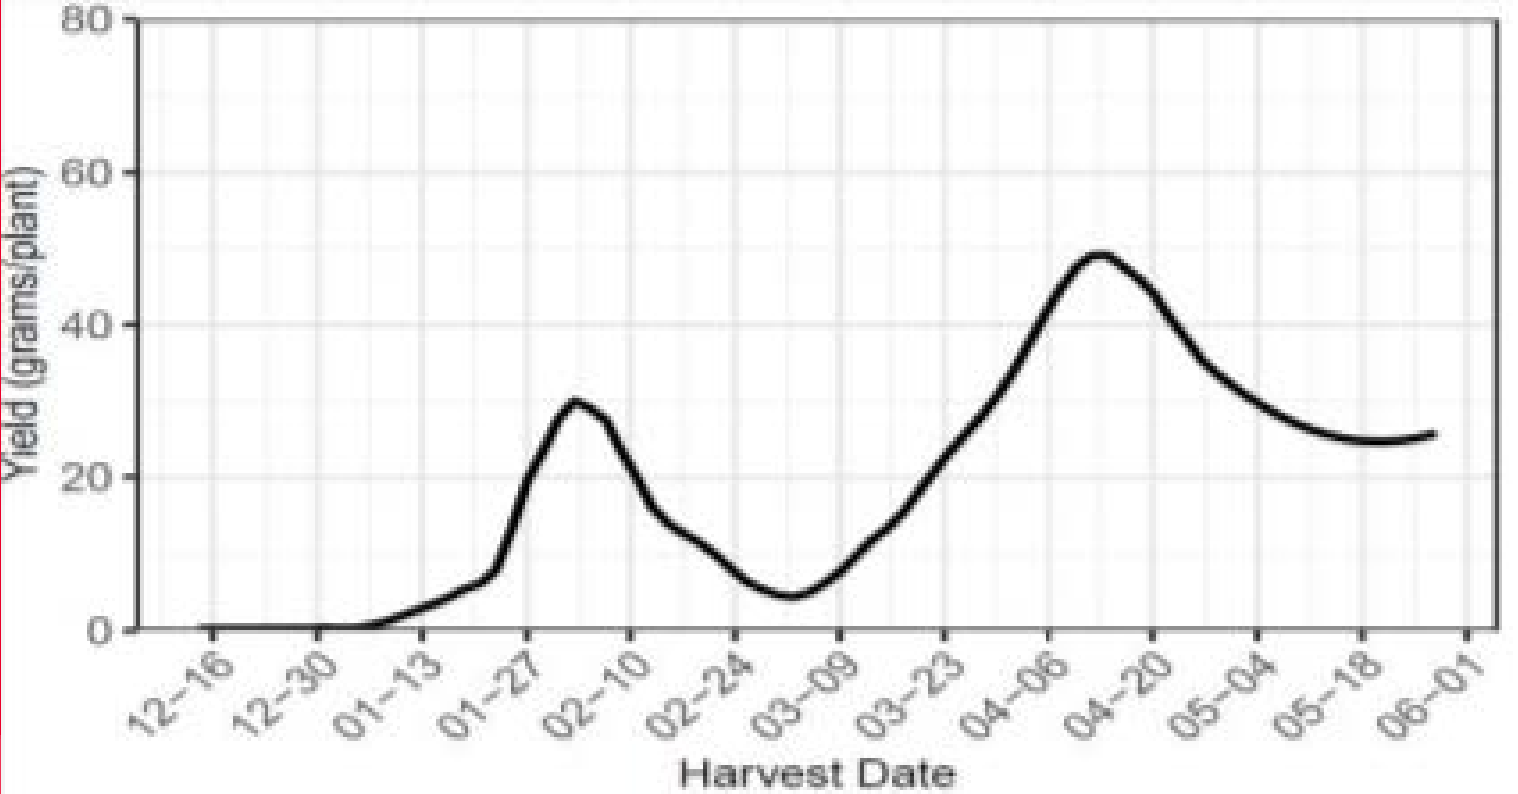

50,000 to 60,000 plants/hectare

UCD WARRIOR OVERVIEW

🍓 Outstanding cultivar for short-day production

🍓 Highly resistant to multiple soil-borne diseases

🍓 Exclusive hybrid plants

🍓 Crowns produced from certified disease-free foundation stock

🍓 Technical advice to maximize productivity and profits

UCD WARRIOR REVIEW

“The UCD Warrior variety is characterized by generating fruit with a very attractive intense red colour with a good fruit calibre with high Brix degrees, highlighting its good conservation over time.”

Antonio Arjona - Viveros California
